SCOUTDATA

Big Data and Artificial Intelligence for football

STRATEGY · TALENT · PERFORMANCE

Francisco Revaliente, founder · scoutdata.es

01 · THE PROBLEM

The elite decides with data. The rest of football, by eye.

Expensive tools

Data platforms are designed and priced for big clubs.

Blind scouting

Many signings are decided with loose videos, contacts and intuition.

Squad without control

There are no objective metrics to measure and manage performance.

Elite analysis, within reach of any club

01
Strategy

Tactical and opponent analysis, comparing your team with any club.

02
Talent

Crack Finder, Signings Radar and Clone Finder across the whole database.

03
Performance

Squad, workload, injuries and squad selection with AI indices.

03 · THE PRODUCT

A complete platform, ready to use

- ✓ Three ways to work: **team**, **academy** and **agent**
- ✓ Pick your club from the database or create yours in minutes
- ✓ Crack Finder across **750+ leagues** and **145,000+ players**
- ✓ Signings Radar, Clone Finder and Team Comparison
- ✓ 15-day free trial, no card; automatic sign-up on payment
- ✓ In Spanish and English, with **25 video tutorials**

03B · LATEST

What we have just added

🔎 Global Crack Finder

Instant search across the whole database, with Crack Index and Opportunity Index.

💶 Market value

Estimated value and contract for every player with our APIProScouting engine.

🎓 Academies

Several categories in one account, family report and coach access.

🕴 Agent mode

Scouting only: player portfolio, radar and comparison without a team.

📈 Career paths

Season-by-season history and an "on the up" filter.

🎬 Tutorials & backups

A video in every section, downloadable backups and sign-up alerts.

04 · TECHNOLOGY

Worldwide data, processed with our own AI

Official sources
Licensed competition data, updated every day.

→

APIProScouting
Our own big data and AI engine: indices, value and contracts.

→

Own server
Search database with 145,000+ players, answers in milliseconds.

→

Your club
Full web access from computer or phone.

■ Card payments and automatic sign-ups via Stripe ■ Private admin panel ■ Email alerts for new sign-ups

One price. The full system.

€15.99

per month · VAT included

€159.90

per year · VAT included · 2 months free

100% of the system on every plan, no cut-down versions.

No set-up cost: the club starts as soon as it pays.

Recurring revenue; future packs by number of licences.

Clubs all over the world, at any level

ScoutData is not limited to one league or level: it serves professional football through to regional and grassroots football, in any country.

Plus academies and player agents.

Customers	Annual revenue
100 customers	**€15,990**
500 customers	**€79,950**
1,000 customers	**€159,900**
5,000 customers	**€799,500**

Illustrative scenarios with the yearly plan (€159.90, VAT included). Not forecasts.

07 · TRACTION

Where we are today

Upcoming hires

Technical and sales profiles to support growth.

From launch to international expansion

TODAY

Launch

Product and website in ES/EN, 15-day free trial, 750+ leagues.

PHASE 2

First customers

300 clubs, academies and agents in Spain.

PHASE 3

Latin America

Expansion with the product already in two languages.

PHASE 4

Scale

Federation agreements and packs by number of licences.

We are looking for smart capital

Seed round

Partners who bring, besides capital, a football network and experience scaling a SaaS internationally.

Amount, terms and detailed use of funds: under a non-disclosure agreement.

USE OF FUNDS

- Sales and marketing
- Product and AI
- Data and infrastructure
- International expansion
